SECTION 01 Chart DNA

Your natal blueprint at a glance — the four anchors a Jyotishi reads first.

D1 LAGNA	D9 LAGNA	ATMAKARAKA	CHART SCORE
Cancer ♋	**Cancer** ♋	**Moon** ☽	**68** / 100
Rising sign	*Soul sign*	*Soul indicator*	*Good*

YOUR CHART IN BRIEF

*Your **Cancer Lagna** is ruled by **Moon**, placed in Sagittarius in your 6th house. With the Lagna lord in the 6th, life is shaped by service, problem-solving and overcoming challenges. You are a capable competitor who grows stronger through effort and discipline.*

With **Moon** as Atmakaraka, the soul's deepest curriculum runs through Moon's significations: its house, its sign, and its dispositors all carry karmic weight across this lifetime. In your chart Moon sits in your 6th house, so work, service and health routines is where that soul lesson is most often met.

Your D9 Lagna in **Cancer** reveals the dharmic soul-orientation: what you are fundamentally here to *become* beneath the surface personality. Its influence grows with age and shows most clearly in marriage, values and the second half of life.

ELEMENT

Water / Kapha

Water signs give a nurturing, sensitive and resilient constitution, often linked to Kapha in Ayurveda. In balance, water brings emotional depth, endurance and good immunity; when heavy it shows as low energy, water retention or emotional overwhelm.

LAGNA LORD

Moon

Sits in House 6 (Sagittarius). Resilience is lower than average; protective routines yield outsized returns.

SOUL PATH

Cancer

Your path is to create safety for others while developing emotional independence yourself. The recurring lesson is boundaries without walls: protecting your energy without shutting people out.

SECTION 02 Personality & Soul Nature

Cancer rising · Sun H11 · Moon H6

CANCER — YOUR NATURE

Cancer rising gives a warm, protective and emotionally perceptive presence. Ruled by the Moon, this Lagna is deeply tied to home, family and the people you care for, and moods shape your days more than most. The rest of your chart shows how that caring nature is expressed in work, wealth and relationships.

Constitution. A medium build, a round face and deeply expressive eyes are typical of Cancer rising. Digestion and emotions are closely linked, so stress often shows in the stomach first. Regular meals, rest and a peaceful home support your health.

Temperament. Watery, nurturing and emotionally intuitive, you read a room before you enter it. You remember kindnesses and care deeply about the comfort of those around you. Your sensitivity becomes a true strength when you give yourself the same care you offer others.

Life path. Your path is to create safety for others while developing emotional independence yourself. The recurring lesson is boundaries without walls: protecting your energy without shutting people out. Home, family, caring professions and public service are natural arenas for your gifts.

INNATE STRENGTHS	SHADOW TO NAVIGATE
Nurturing, intuition, loyalty, emotional intelligence, memory.	Moodiness, over-attachment, holding onto what needs releasing.

SECTION 03 Wealth & Financial Life

SECTION 06 Health & Vitality

SECTION 07 Navamsa D9 — Soul & Marriage Dharma

D9 Lagna Cancer · 7th sign Capricorn

Method. The D9 Navamsa is the chart of dharma, marriage, and the fruits of one's karma. We read it through the D9 Lagna, vargottama planets, and the 7th house axis.

NAVAMSA INDEX	D9 LAGNA	VARGOTTAMA
71 / 100	Cancer	2
Auspicious	*Soul orientation*	*Moon, Saturn*

VARGOTTAMA PLANETS

You have **2 vargottama planets** (Moon, Saturn): the same sign in D1 and D9, so the birth chart's promise is confirmed at the soul level and delivers with unusual reliability. In your chart, The Moon gives emotional stability and a clear, steady mind and Saturn gives durable discipline and rewards long-term effort reliably.

MARRIAGE AXIS — VENUS + 7TH LORD OF D9

SECTION 08 Yogas & Karmic Formations

Classical formations active in your chart, from Parashari & Saravali tradition.

Gaja Kesari Yoga

ACTIVE

Classical

Jupiter stands in Gemini (house 12) in a kendra from the Moon. The classical Gaja Kesari Yoga brings wisdom, strong reputation, and the ability to command respect in one's sphere. The influence is sustained across life: not a sudden rise, but a steady accumulation of standing, knowledge, and beneficial connections. Especially productive during Jupiter Mahadasha.

Lakshmi Yoga

STRONG

Classical

Venus is powerfully placed in Pisces (house 9): in its own or exalted sign and in a kendra or trikona. Lakshmi Yoga is one of the classical indicators of prosperity, charm, and material well-being. The native tends toward aesthetic refinement and earns through work of quality. Wealth accumulates steadily, particularly during Venus Mahadasha.

Sasa Yoga

STRONG

Classical

Saturn stands in Capricorn (house 7), its own or exalted sign, in a kendra: Sasa Yoga, one of the five Pancha Mahapurusha Yogas. Classical texts describe authority earned through patience, organisation and endurance, often leading people, institutions or large undertakings later in life. Success comes steadily rather than suddenly, and what is built tends to last. The yoga matures with age and gives its strongest results during Saturn Mahadasha or Antardasha, rewarding integrity and consistent work.

"A yoga is a key; its door opens during the Dasha of the planets that form it."

CURRENT ANTARDASHA · SUB-PERIOD RUNNING NOW

Sun Antardasha

29 Jun 2026 → 24 May 2027

The Sun Antardasha sharpens focus on career, authority, and public identity. Dealings with government, bosses, or father become prominent. Good period for career moves, recognition, and leadership assertion. Heart, eyes, and spine need attention.

COMBINED MD + AD FOCUS

The **Rahu Mahadasha** sets the overarching direction: Rahu sits in your 7th, so marriage and partnerships are the main stage of this period. Within it, the **Sun Antardasha** (until 24 May 2027) colours the months ahead: Sun rules your 2nd house and sits in your 11th, bringing wealth, family and speech; and gains, friends and ambitions into focus. Lean into the areas these planets activate, and treat their good habits and remedies as priorities in this window.

UPCOMING The next Mahadasha ahead

What follows the current period.

Jupiter Mahadasha · 16 years

10 Dec 2029 → 10 Dec 2045

The Jupiter Mahadasha brings expansion, wisdom and grace. Education, children, marriage, property, faith and finances receive stronger support, especially when Jupiter is well placed. Generosity and learning during this period tend to bring lasting rewards and respect.

Opens with:

Jupiter Antardasha (10 Dec 2029 → 29 Jan 2032): The Jupiter Antardasha brings expansion, wisdom, and good fortune. In your chart Jupiter rules your 6th and 9th houses and sits in your 12th, so work, service and health routines; fortune, teachers and higher learning; and spirituality, foreign lands and expenses come forward.

Saturn Antardasha (29 Jan 2032 → 11 Aug 2034): The Saturn Antardasha demands patience, discipline, and karmic reckoning. In your chart Saturn rules your 7th and 8th houses and sits in your 7th, so marriage and partnerships; and transformation, research and shared resources come forward.

Mercury Antardasha (11 Aug 2034 → 16 Nov 2036): The Mercury Antardasha sharpens intellect and activates communication, trade, and skill development. In your chart Mercury rules your 3rd and 12th houses and sits in your 10th, so courage, communication and siblings; spirituality, foreign lands and expenses; and career and reputation come forward.

Jupiter AD 10 Dec 2029 → 29 Jan 2032 | **Saturn AD** 29 Jan 2032 → 11 Aug 2034 | **Mercury AD** 11 Aug 2034 → 16 Nov 2036

How Dasha works. Periods are calculated using the classical Vimshottari system (120-year cycle) based on the natal Moon's Nakshatra position. Each planet's Mahadasha reflects the karmic themes it carries in your specific chart — the house it occupies, the signs it rules, and the planets it associates with all shape how the period actually manifests.
